# ELEVATE YOUR EDC WITH INTEGRATED eCOA CAPABILITIES

A modern, electronic clinical outcome assessment (eCOA) solution for high quality site- and home-based data collection built on the robust foundation of our comprehensive EDC solution.

ELIMINATE ERRORS

Unlike pen and paper, our eCOA features built-in branching logic and error checks to eliminate ambiguous, conflicting, or missing data.

ENSURE TIMELY COMPLETION

Visit windows and completion reminders drive timely completion. Time/date stamps demonstrate completion timeliness to satisfy regulatory data integrity requirements.

LIMIT MISSING DATA

Helpful reminders and non-compliance alerts drive remote completion adherence.

ENHANCE SITE-BASED DATA QUALITY

Electronic collection eliminates administration errors and missing data associated with site-based paper-administered COA collection.

Why choose our eCOA add-on module with EDC?

01 Available alongside EDC within a single unified platform

02 Rapid assembly in 6-8 weeks

03 Site-based and home-based completion

04 BYOD and/or provisioned devices

05 Compliance reminders to drive on-time entry

06 Real-time data access and remote patient monitoring

07 Experienced and attentive project team

08 Backed by the leading scientific expertise of Signant Health – ensuring the right solution, and best practice implementation, to deliver high quality clinical evidence

09 Scales from early-phase, local studies to multinational trials

CAPTURE PATIENT INSIGHTS, SEAMLESSLY

Capture clinical outcome (COA) data accurately and efficiently using our eCOA add-on module alongside Unified Platform EDC. Our flexible, modern eCOA application simplifies at-home and in-clinic ePRO and eClinRO collection:
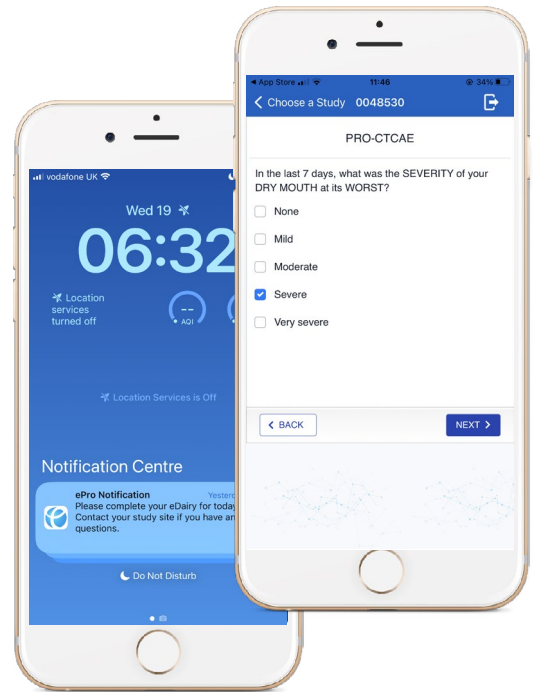

(1) Consumer-grade patient experience

- Modern patient-centric user experience
- Biometric authentication
- Responsive design supports all screen sizes and devices
- BYOD and provisioned devices
- Simple, intuitive app – no URLs to remember
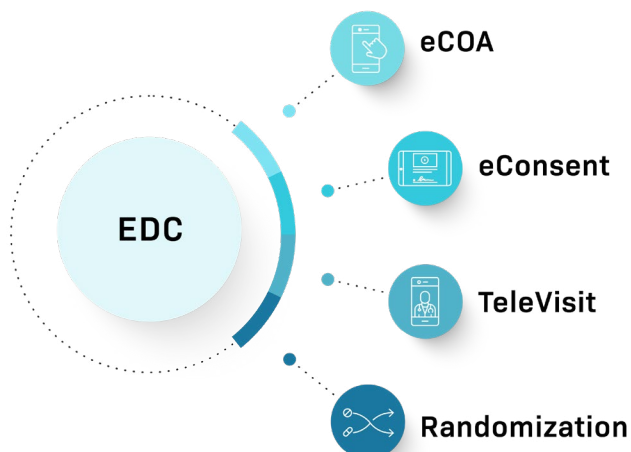

(2) Drives high completion rates

- In-app notifications to drive timely completion
- Real-time compliance monitoring tools

(3) Supported by comprehensive services

- In-house logistics
- On-time translations management
- Patient-facing, multilingual helpdesk, 24/7
- Licensing and scale management support
- Scientific experts advise on measurement strategy and best practices

Our modular approach puts you in control, with a robust EDC foundation and optional add-ons tailored to your study needs.

EDC

- eCOA
- eConsent
- TeleVisit
- Randomization

eCOA

Capture patient-reported outcomes directly with our intuitive, device-agnostic interface using BYOD or provisioned devices.

eConsent

Streamline the consent process with digital forms, remote review options, and signature capture.

TeleVisit

Simplify patient follow-up with secure, compliant video visits.

Randomization

Easily implement patient randomization within the EDC workflow.

WHO IS SIGNANT HEALTH?

SIGNANTHEALTH
THE EVIDENCE GENERATION COMPANY™

Signant Health is the evidence generation company. We are focused on leveraging software, deep therapeutic and scientific knowledge, and operational expertise to consistently capture, aggregate, and reveal quality evidence for clinical studies across traditional, virtual, and hybrid trial models. For more than 25 years, over 600 sponsors and CROs of all sizes – including all Top 20 pharma – have trusted Signant solutions for remote and site-based eCOA, EDC, eConsent, RTSM, supply chain management, and data quality analytics.
