SIGNANT SMARTSIGNALS®
MARKETPLACE
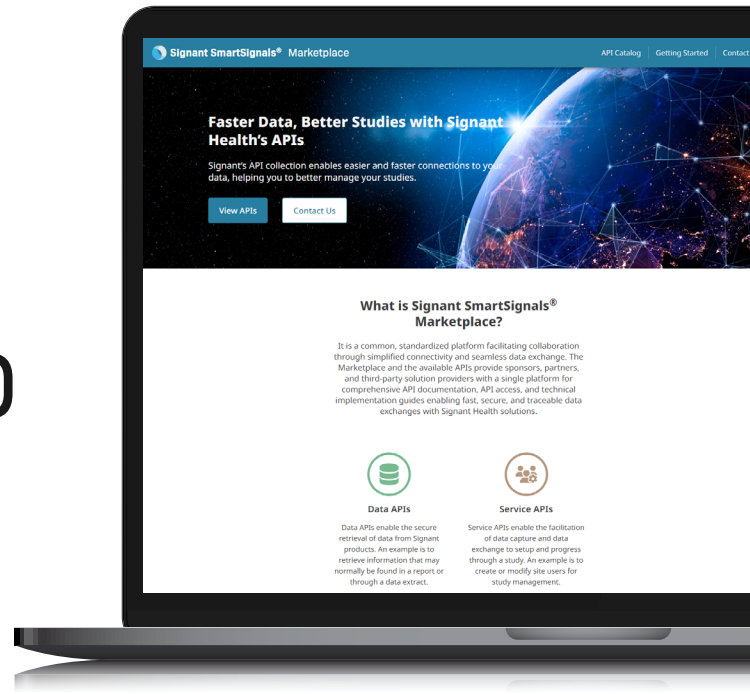

SIGNANT HEALTH
THE EVIDENCE GENERATION COMPANY™

CONNECT YOUR ECOSYSTEM
DRIVE SIMPLIFIED WORKFLOWS

Robust and reliable integrations are key to simplifying the use of multiple eClinical technologies – streamlining workflows, eliminating duplicate activities, and reducing unnecessary reconciliation between systems.

Signant SmartSignals® Marketplace makes it easy to incorporate SmartSignals products within your integrated eClinical technology ecosystem to drive efficiency, quality, and ensure data without doubt.

Marketplace provides developer access to our modern, open application programming interfaces (APIs) for secure and reliable service and data integrations, including:

Implementation Guides
Detailed how-to guides providing comprehensive information on how to use, implement and monitor API integrations for each of our SmartSignals products

API Library
Centralized access to a comprehensive list of all service and data APIs openly available across our solution suite

API Documentation
Consistent documentation on API methods, parameters, syntax, and error scenarios, enriched with sample code

API Monitoring
Real-time monitoring to ensure reliability and performance of APIs, to deliver seamless experience to end-users

Standards-driven Integrations

- Easy to implement and maintain
- Secure and reliable
- Robust, reusable and traceable integrations

- Speeds sponsor and CRO system integrations, and eClinical vendor integrations

Service Integrations

Our service APIs enable actions to be triggered in SmartSignals solutions using API commands. Examples include:

- Create sites within our eCOA application from data provided by a third-party solution (e.g., CTMS)
- Update our eConsent application with a patient screening number provided by an external randomization solution

Data Integrations

Our data APIs enable the secure exchange of data from and to Signant SmartSignals solutions. Examples include:

- Retrieve medication kit status information from our RTSM solution
- Retrieve completed eConsent forms from our eConsent application

Why choose Signant SmartSignals Marketplace?

① Drive end-user benefits by eliminating duplicate activity between systems, and driving workflow efficiency

② Improve data quality, and eliminate time-consuming and unnecessary data reconciliation between eClinical systems

③ Simplify and speed real-time, re-usable integration implementation using robust, best-practice, open standards

④ Achieve fast and consistent data transfers and data access within your solution of choice

⑤ Benefit from robust and consistent API access controls to uphold data privacy, integrity, and availability

⑥ Ensure continued reliability through monitoring of every API transaction and real-time alerting

⑦ Simplify troubleshooting with standardized error handling and messaging

⑧ Available for sponsors, CROs and third-party eClinical solution providers
